

MBMS International

holistic church planting that transforms communities

History: MBMSI stands for Mennonite Brethren Mission and Service International. MBMSI started over 100 years ago, including both the concept of mission—evangelism, discipleship—and service—social ministry—under the overall focus of church planting.

Focus: MBMSI’s vision is to do holistic church planting that transforms communities among the least reached. MBMSI strives to plant healthy, reproducing churches through evangelism, discipleship and social ministry. It does this through both short- and long-term missionaries. MBMSI works for and through Mennonite Brethren churches in Canada and the United States, in partnership with Mennonite Brethren church conferences and other like-minded partners around the world.

Core Values: Dependency on Jesus—We desire that Jesus be at the center of all we are and do. We have committed ourselves to regular seasons of listening prayer and intercession.

Risk-Taking Obedience—We want to prayerfully accept all that God has on his kingdom agenda for our missionary team. We desire to listen to God and each other, obey promptly, and trust God for his provision.

Transforming Community—We believe Jesus calls us into a community that is being transformed as we serve God, each other and the world around us. Our relationships with each other testify to the reality of Christ’s presence in our lives.

Relational Integrity—We value truth and love in our relationships with our staff and each other. We value relationships which are supported by loving accountability, trust, and mutual respect.

Celebration—We desire to live for God’s glory. One of the ways we glorify God is by celebrating each others accomplishments and service. The joy of God is our strength in all things.
